Size-It is with sincere gratification that the Nobles and Representatives have learned from Your Majesty, in the Address from the Throne at the opening of the present session of the Legislative Asmbly, of the steady progress of the country during the interval since the last meet-ing of the Legislative Assembly, and that the nation has increased in population and productive power, and has reached a better standing in its relations with the great powers.

The statement of the policy of Your Majesty's Government in regard to the Tresty of Reciprocity with the United States of America meets with our approval. and we shall hold ourselves in readiness to promote the continuance of our present relations with the country so far as we may do so consistently with the interests of the nation at large.

We observed the expression of the policy of Your Majesty's Government toward other Polynesian communities, and await the explanation of such policy in further detail by Your Majesty's Ministers, and shall give the subject, when submitted to us for action, the thoughtful attention which its immortance deceased. which its importance des

It is a matter of great satisfaction to us to learn that the estimated revenue of the Kingdom is amply sufficient to meet the current expenses of the Government. We feel that the question raised by the proposed use of the national credit for immigration and works of internal im-

provement are simplified by these facts.

In regard to the subject of national health, we assure Your Majesty that we are fully alive to its importance, and de sire to co-operate fully with Your Minis-ters in effective measures for the extinc-tion of leprosy, and for the furtherance of the general health of the community. We rejoice to learn that the health authoriti have been able to furnish improved treat-ment to those suffering from the disease of leprosy, and that this disease has been thereby brought under a most assured control.

We shall consider carefully the public questions which the late destructive fire in Honolulu may bring to our attention and shall endeavor, so far as comes within the province of legislative action, to favor such restoration of the burnt district as shall reduce the danger from the fire in future to a minimum, and at the same time increase the sanitary condition of hat portion of the city.

We note Your Majesty's reference to

proposed measures for the establishment of a technical school, and the emoouragement and expansion of ocean steam com-munication under the Hawaiian flag, and shall give such measures, when laid be-fore us, our attentive consideration. In conclusion, permit us to rejoice with you in the measure of prosperity which our country has experienced since the last meeting of the Legislative Assembly, and to express to Your Majesty our sympathy and condolence in the adverse circum-

Aingdom. 2. To ameed Section 1 was XXXVII of the Penal Code, relating to variants, etc. 3. To ameed Chapter XXXV of the Penal Code, "relating to the Lord's Day commonly called Sanday." 4. Bismarck's Doctor and Diet.

Prince Bismarck is again indisposed, it said, and pleurisy is feared. That ose of Berlin. Munich was to him at Brighton was to our English rising edico, and Bismarck's eldest son wa discoverer. This gentleman having had some sixty or seventy pounds weight taken off him, and having been brought out of the very back-teeth of death by fol-lowing Dr. Schwenniger's advice, sug-gested that his father should also become patient. The Chancellor was willing but he could not go to Munich, and the doctor could not leave his practice there without a quid pro quo. The quid-severa hundred quid-was found by his appoint ment to a professorship in Berlin, which be now holds, in addition to an enormous private practice. He sees Bismarck daily had brought him into perfect health, and had so tamed the tiger that the former periodical explosion in the Reichsrah had entirely ceased, and there had been n change in the Government since Schwen niger had charge of the Chancellor's digestion. Diet, not medicine, is what Professor Schwenniger swears by. drugs, no mineral waters, no "kur" of any drugs, no mineral waters, no "kur" of any kind. Eat of only one dish, no matter what they may be. Oysters, lobsters, beef, mutton—eat your moderate fill of that, but touch nothing else at a meal; no vegetables, save perhaps a little salad, no sweets, no savories, and do not touch one drop of liquid until balf an hour, in some cases an hour, after your meal is ended. The American Ship Albert G Ropes.

The ship Albert G. Ropes arrived recently n a trip of 164 days from New York. This ship was built in 1884, and made her first trip San Francisco from New York, arriving strated the fact that the Bath shipbuildre had at last hit upon a model that combine ors and at test hit upon a model that combined great carrying capacity with great speed. The net tournage of the Ropes is 2,342 tons, and she is considered good for a 3,506 ton cargo. Within a year she has discharged such a cargo in San Francisco, loaded a cargo of wheat, carried the same to Europe, unloaded, took in cargo for New York, made the trip across the Atlantic, discharged, loaded another cargo and made the vovace to San Francisco with a nade the voyage to San Francisco with a couple of days to spare. If there be another cosel, flying the American or any other flag, with equal carying capacity, that can show such a record, we would like to see it. Here is the history of the Albert G.
